

Supply Chain Accessibility Program

Intel is committed to a culture of Accessibility

We are focused on driving a sustained culture of accessibility, embracing technology to eliminate barriers, foster innovation, and empower all people to reach their full potential.

By considering accessibility during product development, Intel designs products that are accessible to a wider range of users – including children, the growing senior population, and people with diverse abilities. We embrace the use of science and technology to help reduce barriers so that people with disabilities are able to perform tasks that would otherwise be difficult or impossible.

Intel's requirements for supplier services & products

The Supplier Compliance Handbook is a resource for Intel suppliers to access Intel policies and supplier expectations.

Please view section 7 for our Accessibility requirements and expectations: [Supplier Compliance Handbook](#) (section 7)

Intel is a member of the Disability:IN Procure Access Advisory Group. Procure Access is a business-to-business initiative facilitated by [Disability:IN](#), the global disability inclusion non-profit.

Procure Access brings together companies that recognize the importance of purchasing and selling technology that is accessible to people with disabilities. Learn more: [Disability:IN Procure Access Statement](#)
