

# Empowering US Heroes through Data Sovereignty, Ethical AI, and Precision Health

AI MINDSystems Foundation is a non-profit pioneering exponential technology-enabled systemic interventions to advance humanity's health, safety, prosperity, and privacy. AI MINDSystems Foundation, in partnership with Intel, is pioneering a secure, equitable, and person-centered data ecosystem that empowers individuals with control over their health and personal information. This transformative approach drives responsible AI advancements in healthcare, social services, and life sciences, starting with US military service members, veterans, first responders, and their families through the National HERO initiative. Its solution, WISDOM Networks, blends neuroscience and neuromorphic computing with classic and generative AI. WISDOM Networks leverage multiple Intel® technologies, including the Intel® Trust Authority, Intel® Xeon® Scalable Processors, Intel® Gaudi® 2 AI Processors, Intel® Data Center GPU Max Series, Agilex® 7 FPGAs, and enhanced Intel® Software Guard Extensions (SGX).
