Enabling Business Transformation in Saudi Arabia and Beyond

DETASAD is an end-to-end ICT solution provider. Eager to bring its services to more clients across the Middle East and Africa, DETASAD launched an ambitious plan for international expansion. As the growth initiative gained pace, DETASAD knew that the volume and velocity of data on its cloud platform would increase dramatically. To support growth, the company standardized, and expanded its hosting infrastructure with powerful, scalable Lenovo ThinkSystem servers, featuring 2nd Gen Intel® Xeon® Scalable processors, helping the company provide responsive, reliable services to more enterprises. DETASAD benefits from easy scalability and improved the efficiency of its IT infrastructure, with energy consumption lower than its legacy hardware.
