	Terms/Acronyms	49 - 50

Section 1: Gaining Access to ePDM

A. Internet Browser/Software/Hardware Requirements

<u>1. Internet Browser Requirements</u>

One of the following is required to use Intel's E-Business web-based applications:

- Internet Explorer: 5.0 or higher
- Not fully compatible with Netscape Explorer or Communicator

2. Software requirements:

- WinZip or compatible UN-Zip software
- Post Script printer (that also supports above requirements)

B. Signing up for an account in ePDM

1. Log into the following web site: *https://supplier.intel.com/infoweb/*

2. Select Registration

New Security Changes May Affect Some Suppliers

If you have direct access to the Intel Internal Network (Intranet) then you may be affected by security changes regarding non-Intel Managed Systems (notebooks, laptops, PDAs, etc). Please read the latest NIMS Security Bulletin regarding this topic.

WebSuite Downtime Notice

Intel WebSuite will be down for 3 hours as new upgrades are released into the suite of tools.

Supplier Highlights

Automated Test Suite

Due to the current RosettaNet environment, Supplier.intel.com is stopping the use of ATS. You will no longer be able to request access to ATS. Please work with your Intel trading provisioners for any additional testing tools and requirements.

Intel Web Suite Advanced Shipment Notice (ASN) Necessary for All Shipments

Due to process changes on how shipments are received at Intel, an ASN is necessary for all shipments to Intel. ASN, part of the Intel ® Web Suite, is a simple and effective way to ensure that all shipments are processed correctly.

int_el.

- 3. Select <u>Request New Account</u> link to initially apply for an account.
- 4. Select <u>Check the Status or Request Additional</u> <u>Access</u> to determine your account approval status or to request access to other supplier.intel.com modules.
- 5. After your account is created, you can update your personal information at any time.

<u>C. When registration screen appears select the</u> <u>following:</u>

1. Supplier Info-PDM (click on empty box- (ensure it has a check mark).

2. Click on the Next button

		· -
		SIMI (and TSM Recon) 💿
		SIMI Exception App - Suppliers Only 🕜
		Supplier Info - OMEP 💿
(•	Supplier Info - PDM 🧿
		Coppling Tofe Quality
		Supplier Info - Serial Number Tracking 📀
		Supplier Info - Sili-Con Reports 💿
		Tahoe 💿
		TSRF 💿
		WMLite 📀
		Next >>

D. The registration screen will appear:

- 1. Complete all required fields indicated by an asterisk *.
- 2. Click the question mark to obtain help with the specific field.
- 3. Click on the Submit button when completed.
- 4. Your request must be approved by your SPS rep within your company before being forwarded to Intel.
- 5. You should receive your account information by e-Mail within 10 business days after approval from SPS rep.

Your request should not take longer than 10 business days, if it does:

- Call your Intel contact to ensure they have approved your account.
- Check your e-Mail to ensure that you have not received notification on the new account.
- Work with your Intel contact to trouble shoot why your account has not been activated.
- If any of your information was filled out incorrectly you may have to re-apply.
- If you have multiple sites you only need one account it will allow you access to all site BOM's.

Section 2: Using your ePDM account

- A. Logging into ePDM using your browser:
 - 1. Log into https://supplier.intel.com/infoweb/
 - 2. Click on My Supplier Info
 - 3. Enter your Login ID and Password
 - 4. Click Submit

Running an Item Query

- The *Item Query Report* is the first screen you'll see when you select the <u>Product Data</u> <u>Management</u> link
 - Enter an **Item Code** if you know the Intel part number for which you want to query.
 - Click Run Report after all search criteria has been entered.

int _e l.	🖉 Contact Us 🔎 Contents 🔎 Registration 🔎 Support
Supplier.intel.com ③ Supplier Infoweb ⊖ Product Data Mgt	Product Data Management
• Query Run Report Clear Fields • AML Summary ④ AML Change Order ④ Quality ④ Quality Action Notice	Click Run Report after all criteria entered Enter a number for a specific item to query. Created: Is Equal Modified: Is Equal
	[Excel Download] [Run Report]

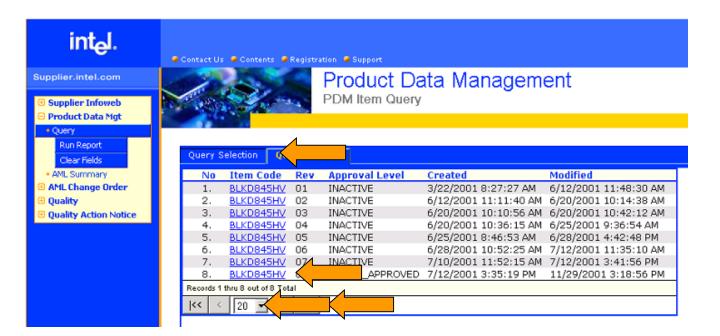

See Slide 39 for more details about advanced queries.

Running an Item Query continued

- 3. Click on the **Query Selection** tab to run a query with different criteria.
- 4. Click on the **Item number** link for the latest rev (BLKD845HV) to view the details for that item.
- 5. Use the Arrows to view the next series of numbers.
- 6. You can change the number of rows viewable on a page (20 200) by selecting the drop down row count selector.

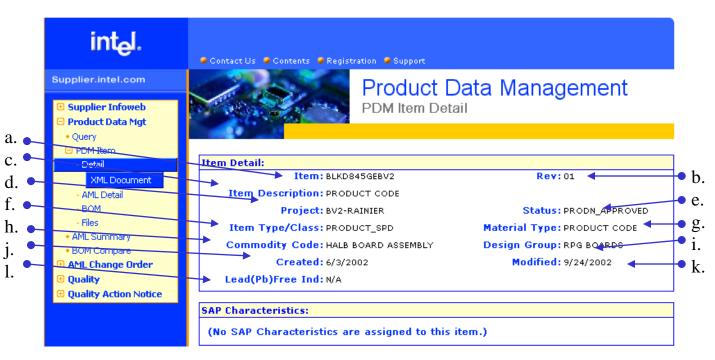

Item Detail Screen defined

- **a.** Item: BOM Name or item that is being viewed.
- **b. Rev:** Revision Number of the Item/BOM
- c. Item Description: Description of Item/BOM
- d. **Project:** Product grouping
- e. Status: Item/BOM status Level (Prod-app, Model, Design, etc.)
- f. Item Type/Class: Description of Item/BOM class type
- **g.** Material Type: What type of item you are viewing (examples Non Valuated, Raw Material, Semi-finish, etc.)
- **h.** Commodity Code: The description of the item Commodity (Connector, IC, Passive, etc.)
- i. **Design Group:** Intel Design group owning item.
- j. Created: Date item was created
- **k.** Modified: Date of last change to item
- **I.** Lead (Pb) Free Ind: Overall item lead free status.

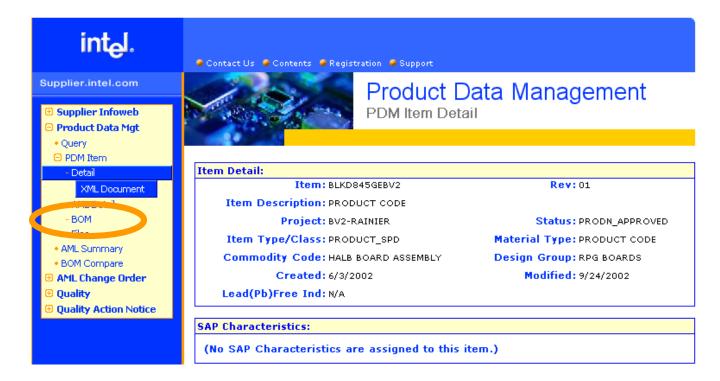

View the Bill of Material (BOM) for Item

1. Click on the **BOM** link to view the Bill of Materials for this item.

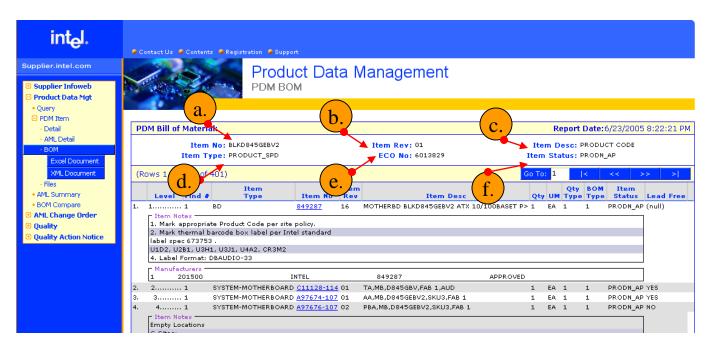

Bill Of Material defined

- a. Item No: BOM or Item that was queried on
- b. Item Rev: Revision of BOM or Item
- c. Item Desc: Description of the BOM or Item

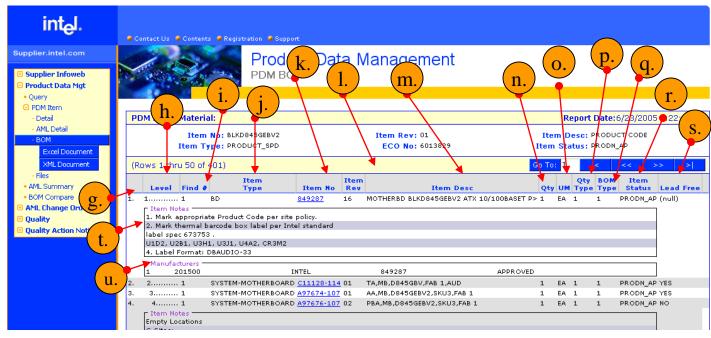

- d. Item Type: Item Class Type
- e. ECO No.: ECO number that made Item Change
- f. Item Status: BOM or Item status level

Note: Report date and time (actual time report was run will appear on all BOM Reports)

intel.

Bill Of Material Defined continued

- g. Row Numbers: Numbers how many rows are in the BOM
- h. Level: Number of levels item displayed is from the Parent item query was run on.
- i. **Find #:** Find number for that line item (700+= documents, reference items, etc.)
- j. Item Type: Class of that line item (Motherboard, document, Connector, etc.)
- k. Item No.: Intel part/item number for that row.
- 1. Item Rev: Revision number for that part/item
- m. Item Desc: Part/item description
- n. QTY: Quantity for the part/item needed to build the BOM
- o. UM: Unit of Measure for that part/item (EA=Each, GM= Grams, etc.)
- p. **QTY Type:** Part/item type (1= part, 2= documents)
- q. **BOM Type:** Part/item use code (1= Primary or Normal 3= Alternate Tells the factory this part can be substituted for the primary part 4= reference (documents, datafiles, etc) documentation needed to buy or make the part
- r. Item Status: approval level for that part/item
- s. Lead Free: Overall Item lead free status
- t. Item Notes: Information about item for that item row.
- u. **Manufacturers:** List of potential manufacturers allowed to provide the part based on AML status for part.
- v. (Not Displayed) Reference Designators: Locations on the Board where item is attached.

Quality Action Notice Defined

- 8. Select different page links to see information on those pages.
 - **a. Details** main details of the QAN including title and problem statement.
 - **b. Discrepant Item** list of items that are considered to be the problem if Responsible Function is External Supplier Quality
 - c. Containment/Disposition Products and Sites affected if major containment is required. Includes Containment ARs and tasks for site.
 - d. Action Required General ARs for QAN.
 - e. Risk Assessment Assessment of risk for several areas and overall risk regarding the issues being discussed.
 - **f.** Bridge Information Information to call into the meeting.
 - g. Meeting Minutes Notes and attendees from meetings held.
 - **h. Files** Files attached to the QAN.

intel

Quality Action Notice Defined continued

- 8. Pages continued...
 - h. Resolution Detail detail of the resolution for this issue.
 - i. **Resolution** Action general ARs as part of the resolution of the issue.
 - **j.** Resolution Meeting Minutes notes and attendees of the resolution meetings.

AML Summary

- k. Resolution Files files attached to the resolution.
- 9. To return to item query, select Product Data Mgt button then Query sub option
 Product Data Mgt
 Query

Advanced Query Options - Item

- **a.** Item Code: The Intel P/N. Part number can be any part number within the BOM, not just the Product Code.
- **b. Rev:** Revision of the item code. Leave field blank to see all revisions or enter the specific revision number.
- **c. Approval Level:** Status of the revision of the item code. Indicates current production readiness of that revision.
- **d.** Created and Modified: Dates that items were created or last modified.

Section 3: ePDM Quick Start Guide

A. If you do not have an account on Supplier.intel.com:

- 1. User your browser to go to https://supplier.intel.com/
- 2. Click on Registration link.
- 3. Check the Supplier Info-PDM Box
- 4. Click the Next button
- 5. Complete the account information form
 - a. Ensure all required * fields contain data
 - b. Choose a login Id and Password
 - c. Use the email name for the Intel Contact
 - d. Be sure your e-Mail address is correct
 - e. Be sure you Phone number is correct
 - 1. Include Area and country code.
- 6. Click the Submit button
- 7. You will be notified by e-Mail if your request has been approved.

A. Changing data on Supplier.intel.com

- 1. If you need to change your data on ePDM
- 2. User your browser to go to https://supplier.intel.com/
- 3. Click on the Registration
- 4. Click on the Update Your Personal Information
- 5. Change required fields
- 6. Click the Submit button

Quick Start Guide continued

C. Logging on to ePDM:

- 1. With your browser go to https://supplier.intel.com/
- 2. Click the **<u>Supplier Login</u>** link
- 3. Log on using your individual Log In ID and Password
- 4. Click the **<u>Product Data Management</u>** link from the
 - menu that appears

D. Accessing Product Data (Viewing Item Detail):

- 1. From the Item query report page (default screen when you log on to PDM web site), enter the BOM name or item number you want to search for.
- 2. Click on the Run Report button.
- 3. To view item detail or Item BOM's click on the <u>Item</u> <u>Number</u> link for the desired line item.

E. Accessing Product Data (Viewing BOM for an item):

- a. Follow "Viewing Item Detail" options above
- b. Click on **BOM** Link

Quick Start Guide continued

F. Accessing Product Data (Viewing Files):

- 1. Follow "Viewing Item Detail" options or "Viewing BOM for an item" options
- 2. Click on the **Files** under report menu
- 3. Check the box next to the files you want to view or down load to disk.
- 4. Click on the **Download Files** button.
- 5. Choose View from current location or download to disk.
- 6. Follow prompts from screen.

G. Accessing Product Data (Viewing QANs):

- 1. Select **Quality Action Notice** then **Query** options
- 2. Enter the QAN number you want to search for.
- 3. Click on the Run Report button.
- 4. To view QAN detail click on the <u>QAN</u> number link for the desired line item.

Terms/Acronyms

- 1. AML Approved Manufacturers List list of suppliers for an item
- 2. **BOM** Bill of Materials- list of files, documents and parts needed to build a product line.
